T-ALL

Core Positioning

Positioning: A Global Leader in Testing, Inspection and Certification for Oil & Gas and New Energy

Vision: A Globally Trusted Third-Party Testing, Inspection and Certification Organization

1000+ Employees | 30+ Bases & Laboratories | 20+ Global Branches

Service Portfolio

Testing

- NDT
- Gas-Tightness Testing
- Corrosion Monitoring
- New Energy Testing
- Pipeline Inspection
- Leak Detection
- Metrology & Calibration
- Environmental Testing

Inspection

- Factory Inspection
- Site Inspection
- Supervision

Consulting & Certification

- Asset Integrity Management Consulting
- Related Certification & Consulting

Value-Added Services

- Tubular Repair
- Machining
- Lab EPCC
- CP Engineering
- Equipment MRO
- Coating Services
- API Workshop EPCC
- Digital & Smart Services
- CP System O&M
- Equipment Procurement

Full Lifecycle Value Creation

Engineering Assurance
Independent design review, risk identification, and early-stage optimization

Procurement Integrity
Vendor surveillance, expediting, and global quality assurance

Construction Oversight
On-site inspection, HSE governance, and execution control

Operational Excellence
Asset integrity, inspection strategies, and emissions management

Risk Mitigation by Design
Anticipate and eliminate technical and operational risks at early stages

Execution Certainty
Ensure consistency, quality, and schedule adherence across complex supply chains

Field-Level Control
Drive safety, compliance, and workmanship excellence where it matters most

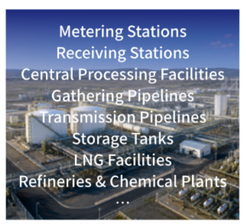

Data-Driven Operations
Enable predictive maintenance and lifecycle optimization through validated data and digital tools

Service Scenarios

Oil & Gas Well Engineering

Oil & Gas Surface Facilities

Energy Infrastructure

Credibility

50+ Authoritative Certifications
Global Standards, International Quality

TIC Council Member

ISO-17020

ISO-17025（CNAS）

CMA

API-Q1

API-Q2

API-5CT

DNV

ECITB

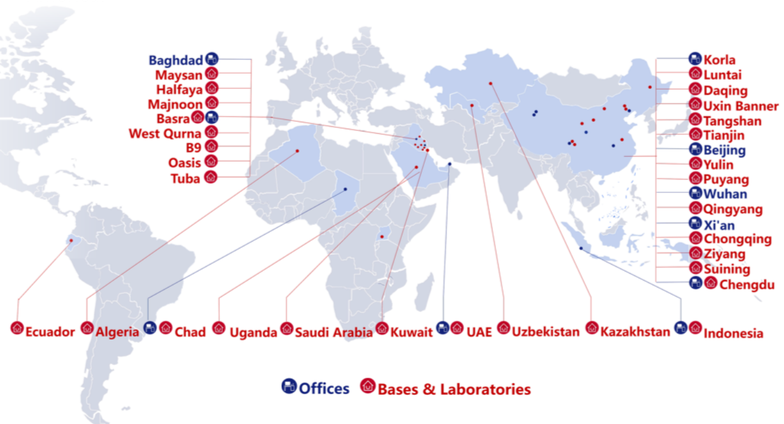

Authorized Threading Facility for Leading Global Steel Mills

Service Network

★ Prioritize Natural Gas Market to achieve China Nationwide Coverage

● The international layout centers on Abu Dhabi, with key countries along the "Belt and Road" such as Central Asia, the Middle East, Africa, South-East Asia, South America.

Feel free to contact us, we will serve you with all sincerity!

Service Portfolio 1: Testing

Comprehensive conventional and advanced customized testing technologies enable accurate, intelligent asset-condition diagnosis and ensure safe, compliant operations.

NDT

- Ultrasonic Testing (UT)
- Magnetic Particle Testing (MT)
- Penetrant Testing (PT)
- Radiographic Testing (RT)
- Magnetic Flux Leakage (MFL)
- Eddy Current Testing (ECT)
- Acoustic Emission (AE)
- Phased Array (PA)
- Automated Ultrasonic Testing (AUT)
- Time-of-Flight Diffraction (TOFD)
- Digital Radiography (DR)

Pipeline Inspection

- In-line Inspection
  - · MFL · ECT · UT Thickness
  - · UT Crack · Axial Stress
  - · Crawler · Micro-leak
- External Inspection
  - · ECDA · ICDA
  - · Guided Wave · MTM
- Pigging Services
- Pipeline Patrol

Gas-Tightness Testing

- Casing Gas-Tightness Testing
- Tubing Gas-Tightness Testing
- Wellbore Gas-Tightness Testing

Leak Detection

- Nitrogen Services
- Helium-Nitrogen Leak Testing
- Flange Management
- Industrial Cleaning
- LDAR
- Gas Leak Monitoring

Corrosion Monitoring

- CP System Assessment
- Corrosion Rate Monitoring
- Lab Corrosion Tests
- Failure Analysis

Metrology & Calibration

- Mechanical Metrology
- Thermal Metrology
- Dimensional Metrology
- Electrical Metrology
- Chemical Metrology
- Safety Valve Testing
- Gas Cylinder Inspection

New Energy Testing

- Wind Power Testing
- Photovoltaic Testing
- Energy Storage Testing

Environmental Testing

- Soil
- Air
- Water
- Noise
- Ecology

Service Portfolio 2: Inspection

A full-process inspection system covering manufacturing, installation and construction accurately verifies product conformity and engineering compliance, ensuring both product and project quality.

Factory Inspection

- Third-Party Inspection
- Welding Inspection
- Coating Inspection
- Expediting
- Factory Inspection & Acceptance
- Packing & Loading Inspection
- Supplier Audits

Site Inspection

- Installation Plan Review
- Installation Supervision & Inspection
- Commissioning Plan Review
- Commissioning Supervision & Inspection
- Start-Up & Operation Review
- Start-Up & Operation Supervision

Supervision

- Construction Plan Review
- Construction Process Supervision
- Incoming Material Acceptance
- Critical Process Acceptance
- Corrective-Action Closure
- Project Progress Review
- Final Acceptance Coordination

Service Portfolio 3: Consulting & Certification

Empowering clients to build management systems and obtain certifications for high-quality, sustainable development.

Asset Integrity Management Consulting

- **Asset Integrity System Development**

  Asset Health Assessment / Asset Due Diligence / Asset Criticality Analysis / Asset Classification Management
- **Asset Integrity Management Training**
- **Asset Integrity System Audits**
- **Asset Integrity Technical Services**

  RBI / RCM / FFS / ··· / Condition Monitoring & Assessment / Remaining-Life Assessment & Extension

Related Certification & Consulting

- Product Certification & Consulting
- Management System Certification & Consulting
- Service Certification & Consulting
- Personnel Certification & Consulting
- International Certification & Consulting
- ESG Certification & Consulting
- Carbon Peaking & Neutrality Certification & Consulting
- ···

Service Portfolio 4: Value-Added Services

Drawing on an in-depth understanding of client assets, we deliver high-value solutions that reduce workload, improve quality and efficiency, and enable efficient operations.

Tubular Repair

Coating Services

Machining

API Workshop EPCC

Lab EPCC

Digital & Smart Services

CP Engineering

CP System O&M

Equipment MRO

Equipment Procurement

T-ALL We would welcome the opportunity to present our full capabilities and explore how T-ALL Inspection can support your strategic objectives.
